Item NO.	Category	Product Name	Picture	iFixture Link	Functional Description	Specifications	OPTION	REMARK
IF001	Pin/Jig/Fork	Needle fixture		https://i-fixture.com/product/needle-fixture/	Primarily used for hanging end sleeves on tooling plates (can be tested with rubber wheels for hanging terminal wires; includes a bottom fixing rod and can be used upside down).	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating	Number of needles: 2, 3, 4, (5, 7 MOQ1000)	(5, 7 MOQ100)
IF086	Pin/Jig/Fork	Detachable and replaceable Needle fixture		https://i-fixture.com/product/2-pin-fork-wire-clamp-fixture-binary-fork-wire-holding-fixture/	Primarily used for hanging protective sleeves at the ends of assembly pallets; the unit is detachable and replaceable (rubber rollers can be used when hanging terminal wires, and the bottom features a mounting rod that allows for inverted	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating	Needle: 2	
IF002	Pin/Jig/Fork	U-shaped fixture1		https://i-fixture.com/product/u-shaped-fixture/	Primarily used at tooling plate branch points; can also be used for hanging end sleeves (includes a bottom fixing rod and can be used upside down).	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating	U05*50, U08*50, U10*50, U15*50, U20*50	
IF003	Pin/Jig/Fork	U-shaped fixture2		https://i-fixture.com/product/u-shaped-fixture/	Primarily used at tooling plate branch points; can also be used for hanging end sleeves (includes a bottom fixing rod and can be used upside down).	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating	U25*60, U30*60, U40*60	
IF101	Pin/Jig/Fork	U-shaped fixture3		https://i-fixture.com/product/u-shaped-two-pin-positioning-fixture/	Primarily used at tooling plate branch points; can also be used for hanging end sleeves (includes a bottom fixing rod and can be used upside down).	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating	H5-60, UH10-60, UH15-60, UH20-60, UH25-60, UH30-60, UH40-60	
IF004	Pin/Jig/Fork	Three pin-shaped fixture		https://i-fixture.com/product/three-pin-shaped-fixture/	Primarily used at T-shaped branch points (includes a bottom fixing rod and can be used upside down).	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating Thread length: 22mm (U-shaped size specifications: U2-U36mm, 2mm interval between each type) (U-shaped size specifications: U5-U50mm, 5mm interval between	U10*L10, U15*L15, U20*L20, U25*L25, U30*L30, U35*L35, U40*L40, U45*L45, U50*L50, Customization is available for an additional mold-change fee of $5.	
IF005	Pin/Jig/Fork	Four pin-shaped fixture		https://i-fixture.com/product/four-pin-shaped-fixture/	Mainly used at cross-shaped branch points (with a fixing rod at the bottom, can be used upside down).	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating Thread length: 22mm (U-shaped size specifications: U2-U36mm, 2mm interval between each type) (U-shaped size specifications: U5-U50mm, 5mm interval between	U15*L15, U20*L20, U25*L25, U30*L30, U35*L35, U40*L40, Customization is available for an additional mold-change fee of $5.	
IF006	Pin/Jig/Fork	Special-shaped head fixing clamp - Small U-type, Bent-leg nail head		https://i-fixture.com/product/special-shaped-head-fixing-clamp-%ef%bc%8csmall-u-type%ef%bc%8cbent-leg-nail-head/	Primarily used for hanging flag-type terminals, PCB terminals, and individual terminal products.	Materials: Plated iron and stainless steel. Plating options: Zinc, nickel, and chrome.	Custom models: U3, U5, U10, U15, U20, U25. Please consult customer service regarding other specifications.	
IF007	Pin/Jig/Fork	Silicone nail head1		https://i-fixture.com/product/silicone-wire-clamp-fixture/	Primarily used for hanging flag-type terminals, PCB terminals, and individual terminal products.	Materials: Plated iron and stainless steel. Plating options: Zinc, nickel, and chrome.	By default, see the picture	
IF084	Pin/Jig/Fork	Silicone nail head2		https://i-fixture.com/product/silicone-nail-head/	Primarily used for hanging flag-type terminals, PCB terminals, and individual terminal products.	Materials: Plated iron and stainless steel. Plating options: Zinc, nickel, and chrome.	U10/U18 - check the official website.	
IF008	Pin/Jig/Fork	Peach-shaped clip		https://i-fixture.com/product/peach-shaped-clip/	Mainly used for hanging and organizing long cables in the middle section (preventing cables from becoming tangled).	Material: ABS + electroplated iron; Electroplating: Zinc plating (U-shaped dimensions: 15mm to 50mm)	U15*65, U20*65, U25*65, U30*75, U40*85, U50*105	
IF009	Pin/Jig/Fork	Single-Sided Peach-shaped clip		https://i-fixture.com/product/single-sided-peach-shaped-clip/	Mainly used for hanging and organizing long cables in the middle section (preventing cables from becoming tangled)	Material: ABS + electroplated iron; Electroplating: Zinc plating (U-shaped dimensions: 15mm to 20mm)	U15*60, U20*60	

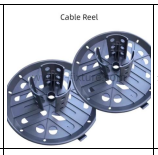

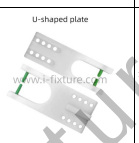

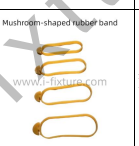

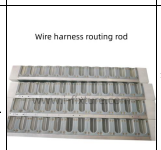

i-Fixture.com

IF117	Pin/Jig/Fork	Single-sided spring-loaded fork fixture (reinforced wire clamp)	Reinforced single-sided U-shaped fork 	https://i-fixture.com/product/reinforced-single-sidedu-shaped-fork/	Primarily used to support and organize wire harness segments (main trunks); designed for easy access and to prevent the harness from falling. It features a metal support structure for enhanced durability and is compatible with support rods	Material: ABS + electroplated iron; Plating: Zinc plating; U-bracket size specifications: 16mm to 50mm.	U:20 24 28 32 36 40 44 48 50	
IF075	Pin/Jig/Fork	Wire Harness Assembly Clamps / Plastic Clamps / Cable Clips / POM Clamps / Automotive Wire Harness Assembly Clips	plastic wire harness clip 	https://i-fixture.com/product/plastic-wire-harness-clip/	Mainly used for hanging and organizing long cables in the middle section (preventing cables from becoming tangled)	Material: ABS + electroplated iron; Electroplating: Zinc plating (U-shaped sizes: U20, U25, U30)	M6 thread, U20×70, U250×75, U30×80	
IF017	Pin/Jig/Fork	Plastic U-shaped fixture1	Plastic U-shaped fixture 	https://i-fixture.com/product/terminal-wire-protective-clip/	primarily used for securing terminal wires and protecting wiring harnesses	Material: Plastic + Zinc Alloy	Green, white, yellow, blue, brown, red, black, gray	
IF021	Pin/Jig/Fork	Plastic U-shaped fixture2	Plastic U-shaped fixture 	https://i-fixture.com/product/plastic-u-shaped-fixture-2/	Primarily used for hanging and organizing long cables in the middle section (to prevent cables from becoming tangled).	Material: ABS + electroplated iron; Electroplating: Zinc plating (U-shaped size specifications: 20MM to 40MM); M8 thread.	U20,U30,U40	
IF108	Pin/Jig/Fork	Flexible wire clamping fixture	Adjustable end clamp 	https://i-fixture.com/product/adjustable-end-wire-harness-clip-fixing-fixture/	Primarily used for the adjustable clamping of wire harness terminals (to prevent wires from scattering or falling out).	Material: ABS + electroplated iron; Electroplating: Zinc plating (U-shaped size specifications:M8 thread.	By default, see the picture	
IF109	Other tools and accessories	Wire harness inspection cylindrical pneumatic cylinder with iron gripper jaws	Cylinder of conducting platform 	https://i-fixture.com/product/automobile-wiring-harness-continuity-tester-cylinder/	Cylinder actuating components	iron	50mm short claw (iron), 50mm long claw (iron), 60mm short claw (iron), 60mm long claw (iron)	
IF110	Other tools and accessories	Specialized sliding-track fixture for wire harness continuity testing	Electrical inspection fixture Chute base 	https://i-fixture.com/product/electrical-inspection-fixture-slide-base/	Dedicated to wire harness continuity testing	Material: Plastic	By default, see the picture	
IF085	Plastic jigs and fixtures	Temporary replacement of wiring harness fork terminals	L-type double fork fixture 	https://i-fixture.com/product/l-type-double-fork-fixture-l-shape-dual-clip-for-wire-harness/	Used for fixtures involving positioning pins—such as in R&D or for temporary, small-batch alternatives—this component primarily serves to secure terminal wires and protect wire harnesses.	Material: Plastic	White + Green	
IF010	Plastic jigs and fixtures	Material handling bin	Material handling bin 	https://i-fixture.com/product/material-handling-bin/	Parts bins, open-front component bins, hanging plastic storage bins, and hardware/tool/screw organizers—suitable for a wide range of applications.	Material: PP plastic Overall load capacity: 60 kg	External dimensions: 154 x 98 x 54 mm Internal dimensions: 130 x 83 x 48 mm Blue, yellow, red, green, white customization is	
IF011	Plastic jigs and fixtures	Wall-mounted open-front bin	Wall-mounted open-front bin 	https://i-fixture.com/product/wall-mounted-open-front-bin/	Parts bins, open-front component bins, hanging plastic storage bins, and hardware/tool/screw organizers—suitable for a wide range of applications.	Material: PP plastic Overall load capacity: 30 kg	External dimensions: 95x102x52mm; Internal dimensions: 80x90x47mm Blue, Red customization is accepted	
IF012	Plastic jigs and fixtures	Rubber Protective Cover	Rubber Protective Cover 	https://i-fixture.com/product/rubber-protective-cover/	The fixing pin fixture is mainly used for securing terminal wires and protecting wire harnesses.	Rubber stick	White, yellow, blue	Not sold separately
IF013	Plastic jigs and fixtures	Suction cup	Suction cup 	https://i-fixture.com/product/suction-cup/	It is mainly used in electronic displays and glass-specific suction cups.	Material: Plastic + Electroplated Iron; Electroplating: Zinc plating(Thread Sizes: M6 and M8)	M6, M8	

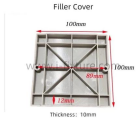

i-Fixture.com

IF014	Plastic jigs and fixtures	Conduction test toggle lock	Conduction test toggle lock 	https://i-fixture.com/product/conduction-test-toggle-lock/	It is mainly used for left, right, and center continuity test interfaces in automotive wire harnesses.	Material: Plastic + Zinc Alloy	left, right, center	
IF087	Plastic jigs and fixtures	Wire harness continuity testing base fixture/module	Test fixture base 	https://i-fixture.com/product/wire-harness-continuity-test-fixture-base/	Applications: Electrical appliances/communication equipment/fiber optics/batteries/automotive/ aerospace sensors/machinery/mobile phones/electronic wristbands, etc.	5cm*3cm*2cm	white	MOQ:1000PCS
IF072	Plastic jigs and fixtures	Wire harness assembly jigs and fixtures, locking mechanisms, snap-locks, spring-pin locks	Snap lock 	https://i-fixture.com/product/snap-lock/	Secure the wiring harness 7	Material: Plastic + Zinc Alloy	Black, orange-red	
IF073	Plastic jigs and fixtures	Wire Harness Assembly Fixtures / Continuity Test Slider (Square Latch/Snap-fit/Slide-lock) / Interface Module	Square Locking Conductive Slider 	https://i-fixture.com/product/square-locking-conductive-slider/	It is mainly used for continuity test interfaces in automotive wire harnesses.	Material: Plastic	white	
IF015	Plastic jigs and fixtures	Fixed harness clamp	Fixed harness clamp 	https://i-fixture.com/product/fixed-harness-clamp/	It is mainly used for automotive wire harness fixing clips and accessory wire clamps.	Material: Plastic	H40, H58	
IF016	Plastic jigs and fixtures	Terminal clamp	Terminal clamp  Fit sizes: U15、U20、U25	https://i-fixture.com/product/terminal-clamp/	Mainly used for automotive wiring harness fixing clips, accessory wire clamps, and fixing pins	Material: Plastic	Small size, small size + fixed fork; Large size, large size + fixed fork	
IF018	Plastic jigs and fixtures	Wire-splitting pole1		https://i-fixture.com/product/wire-splitting-pole-1/	used for fixing to 28mm lean tubing.	Material: Plastic	default	
IF019	Plastic jigs and fixtures	Detachable Wire Harness clip1	Detachable Wire Harness clip 	https://i-fixture.com/product/detachable-wire-harness-clip-1/	Used to attach to the rubber fork pin head.	Material: Plastic	default	
IF020	Plastic jigs and fixtures	Detachable Wire Harness clip2	Detachable Wire Harness clip 	https://i-fixture.com/product/detachable-wire-harness-clip-2/	Used to attach to the rubber fork pin head.	Material: Plastic	default	
IF022	Plastic jigs and fixtures	Wire Harness Hook	Wire Harness Hook 	https://i-fixture.com/product/wire-harness-hook/	Cable hanging fixture, single hook	Material: Nylon + Stainless Steel	Single hook	
IF023	Plastic jigs and fixtures		Wire Harness Hook 	https://i-fixture.com/product/wire-harness-hook/	Cable hanging fixture, double hook	Material: Nylon + Stainless Steel	Double hook	
IF024	Plastic jigs and fixtures	Wire Harness Fixture Protective Cup	Wire Harness Fixture Protective Cup 	https://i-fixture.com/product/wire-harness-fixture-protective-cup/	Terminal protection cup	Material: Plastic	Φ25, Φ40, Φ45, Φ60, Φ70, Φ80, Φ90, Not sold separately	

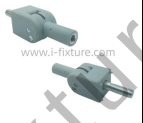

i-Fixture.com

IF025	Plastic jigs and fixtures	Cable Reel		https://i-fixture.com/product/cable-reel/	For cable management	Material: Plastic	default	
IF026	Plastic jigs and fixtures	Wire harness rubber band buckle		https://i-fixture.com/product/protective-cup-rubber-band/	Mainly used for securing and protecting the cable holder	Material: Plastic	default, Not sold separately	Not sold separately
IF027	Plastic jigs and fixtures	Wire harness rubber band buckle + wire harness rubber band		https://i-fixture.com/product/wire-tie-clip-1/	Primarily used for securing and fixing wire harnesses (to prevent wires from becoming tangled).	Material: Plastic	110mm, 150mm	Not sold separately
IF028	Plastic jigs and fixtures	Wire Tie Clip2		https://i-fixture.com/product/wire-tie-clip-2/	Primarily used for securing and fixing wire harnesses (to prevent wires from becoming tangled).	Material: Plastic	default, Not sold separately	Not sold separately
IF029	Plastic jigs and fixtures	Multi-wire waiting fixture		https://i-fixture.com/product/multi-wire-waiting-fixture/	Primarily used to assist in assembling wire harnesses (preventing wires from becoming tangled).	Material: Plastic	default	
IF030	Plastic jigs and fixtures	Mushroom-shaped rubber band		https://i-fixture.com/product/mushroom-shaped-rubber-band/	Primarily used for securing and fixing wire harnesses (to prevent wires from becoming tangled).	Material: Plastic	L40, L50, L60, L70,	MOQ:1000PCS
IF113	Plastic jigs and fixtures	Bundle rubber band orange		https://i-fixture.com/product/wire-harness-rubber-band/	Primarily used to bundle and secure wire harnesses (preventing wires from scattering; particularly useful during prototyping).	Material: Rubber	L, S	Not sold separately
IF090	Plastic jigs and fixtures	Plastic cable ties		https://i-fixture.com/product/self-locking-cable-tie/	Applications: Electrical appliances/communication equipment/fiber optics/batteries/automotive/ aerospace sensors/machinery/mobile phones/electronic wristbands, etc.	Send the specifications you need.	Send the specifications you need.	MOQ:100PCS
IF031	Plastic jigs and fixtures	Wire-splitting pole2		https://i-fixture.com/product/wire-splitting-pole-2/	Used for fixing in 28mm lean tubing	Material: Plastic	default	
IF032	Plastic jigs and fixtures	Wire Harness Board Clip		https://i-fixture.com/product/wire-harness-board-clip/	Primarily used for organizing wire harnesses (to prevent wires from scattering). The long retaining strips are 145mm in length, and the short ones are 115mm! Both have a width of 21mm and a thickness of 2.3mm; the unit is 400mm long, single-layer, and features a divider! Weight: 320g per set! The	Material: Plastic, POM, aluminum alloy	L200, L300, L400, L500, L600, single layer, double layer optional	
IF121	Plastic jigs and fixtures	Wire harness routing channel		https://i-fixture.com/product/automotive-wiring-harness-wiring-rod-split-type-wiring-fixture/	Primarily used for organizing wire harnesses (to prevent wires from scattering).	Material: Plastic, POM, aluminum alloy	8-slot, 10-slot, 12-slot, 16-slot, 18-slot, and 20-slot wiring strips; each individual wiring slot is 35 mm long and 50 mm high.	
IF122	Plastic jigs and fixtures	Wire harness routing channel with cable-retaining clips		https://i-fixture.com/product/wire-harness-clamp-hanging-clip/	Primarily used for organizing wire harnesses (to prevent wires from scattering).	Material: Plastic, POM, aluminum alloy	As shown in Figure 26 (slotted); customization available.	

i-Fixture.com

IF112	Plastic jigs and fixtures	25-Position Wiring Block	Wire harness slot wiring rod 	https://i-fixture.com/product/wire-harness-slot-wiring-rod-anti-static-wire-clip/	Primarily used for organizing wire harnesses (to prevent wires from scattering).	Material: Plastic	customize	
IF033	Plastic jigs and fixtures	Corrugated pipe threading tool1	Triangle wire harness clip 	https://i-fixture.com/product/corrugated-pipe-threading-tool-1/	Corrugated tubing threading fixture	Material: Plastic	Small, Big	
IF034	Plastic jigs and fixtures	Corrugated pipe threading tool2	Corrugated pipe threading tool 	https://i-fixture.com/product/corrugated-pipe-threading-tool-2/	Corrugated pipe fitting fixture	Material: Plastic	Small, Big	
IF081	Plastic jigs and fixtures	Filler Cover for Wire Harness Continuity Test Bench	Filler Cover 	https://i-fixture.com/product/filler-cover-for-wire-harness-continuity-test-bench/	dust-proof	Material: Plastic	Splicing	
IF116	Plastic jigs and fixtures	PVC square wiring duct	PVC square wiring duct 	https://i-fixture.com/product/pvc-square-wiring-duct/	Dedicated for temporary wire harness processing, pre-assembly, stacking, and in-process handling.	Material: Plastic	105*75mm 80*75mm	
IF079	Plastic jigs and fixtures	Round cable divider	Round Cable Divider 	https://i-fixture.com/product/round-cable-divider/	Wire Harness Disc Splitter / 28mm Disc Splitter / Lean Pipe Disc Splitter / 3rd Generation Splitter	Material: Nylon	See the official website.	
IF098	Plastic jigs and fixtures	Custom Hanging Wire Rack	36 hanging points on 3 layers 	https://i-fixture.com/product/lean-pipeline-cable-rack/	Customized Lean Composite Pipe Rack for Wire Harnesses - Factory-Grade Mobile Material, Cable, and Tool Rack for Automotive Wiring	Made from cold-rolled steel with premium materials; features a burr-free black electrophoretic finish that is uniform and glossy. Easy to install and structurally stable.	Lean pipe joints available in standard thicknesses of 0.8mm, 1.0mm, and 1.2mm.Shipped as unassembled parts by default; installation diagrams included.	
IF083	Integrated Jig/Fixture	Three-needle positioning fixture	Bendable integrated plastic cable fork 	https://i-fixture.com/product/bendable-integrated-plastic-cable-fork/	Wire harness clamp end fixture wire clamp wire clamp wire harness fixture end fixture wiring clamp	Materials: Plastic, electroplated iron, and stainless steel	Blue	
IF080	Integrated Jig/Fixture	P-Type Fixtures	P-shaped jig 	https://i-fixture.com/product/p-shaped-wire-harness-jig-wire-tying-jig-for-tooling-board/	Mainly used for hanging end flag-shaped terminals, substrate terminals, and single-end products (with a fixing rod at the bottom).	Material: Electroplated iron and stainless steel; Electroplating: Zinc plating, nickel plating, chromium plating; Thread length 22mm (custom sizes available)	MOQ:20	
IF035	Integrated Jig/Fixture	Special-shaped fixture-Mini U	Special-shaped fixture-Mini U 	https://i-fixture.com/product/special-shaped-fixture-mini-u/	Mainly used for hanging end flag-shaped terminals, substrate terminals, and single-end products (with a fixing rod at the bottom).	Material: Electroplated iron and stainless steel; Electroplating: Zinc plating, nickel plating, chromium plating; Thread length 22mm (custom sizes available)	Φ3, Φ5, Φ10, Φ15, Φ20, Φ25, Φ30	MOQ:100PCS
IF036	Integrated Jig/Fixture	Fix Rod	Fixed pin 	https://i-fixture.com/product/fixing-pin/	Connecting rod with M6 internal thread and M8 external thread	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating Thread: 35mm (size can be customized)	With and without weld nuts: H50, H70, H90	
IF074	Integrated Jig/Fixture	Cuboid fixation pin	Square Tooling Plate Support Post 	https://i-fixture.com/product/square-tooling-plate-support-post/	Mainly used for wiring support and fixed positioning of tooling boards	Material: Electroplated iron and stainless steel	H50mm H60mm H70mm H80mm H55mm H65mm H75mm H85mm H90mm	

i-Fixture.com

IF037	Integrated Jig/Fixture	Iron fork	U-shaped Fork Fixture 	https://i-fixture.com/product/iron-fork/	Mainly used for wiring branches and positioning on tooling plates	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating Standard rod lengths: 110mm and 130mm Thread: 35mm (other sizes can be customized upon request)	U5*H50, U10*H50, U15*H50, U20*H60, U3*H50, U25*H60, U30*H60, U35*H60, U40*H60, U45*H60, U50*H60, U8*H50 With nut and washer	
IF104	Integrated Jig/Fixture	Fixed buckle integrated with U head fixture	Round base U-shaped fork 	https://item.taobao.com/item.htm?id=735687865054&skuId=5082512064635	Automotive wiring harness tooling fixture / U-shaped fork / round base wiring harness fork / fixed fork / wiring harness fork	Material:electroplated iron. Electroplating: Zinc plating, nickel plating, chromium plating.	Round base integrated U-shaped fork standard:U5 U10 U15 INSTOCK U3 U20 U30 U40 U50 LT:10days	
IF051	Integrated Jig/Fixture	Automotive Wiring Harness Fixture: J-Shaped Integrated Fork	J-Shaped Integrated Fork 	https://i-fixture.com/product/automotive-wiring-harness-fixture-j-shaped-integrated-fork/	Mainly used for wiring branches and positioning on tooling plates	Material: Plated iron and stainless steel Plating: Zinc, nickel, or chrome Standard rod length: 120mm (other sizes available upon request)	J5, J10, J15, J20, J25, J30, J35, J40	
IF052	Integrated Jig/Fixture	L-shaped fixture for automotive wire harnesses	L-shaped fixture for automotive wire harnesses 	https://i-fixture.com/product/l-shaped-fixture-for-automotive-wire-harnesses-2/	Mainly used for wiring branches and positioning on tooling plates	Material: Plated iron and stainless steel Plating: Zinc, nickel, or chrome	Customized products are non-returnable and non-exchangeable.	
IF096	Integrated Jig/Fixture	Invertible fixture	Bendable U-shaped fork 	https://i-fixture.com/product/bendable-u-shaped-fork/	Primarily used for wire routing branches and positioning on assembly boards; suitable for automotive wiring harness branching, assembly line boards, reversible jigs, harness cornering/forking, and U-shaped routing.	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating	U5, U10, U15, U20, U25, U30, U35, U40, U45, U50 Specifications: When the U-spacing is ≤15: D = 5 mm, fork height = 50 mm When the U-spacing is >15: D = 6 mm, fork height = 60 mm 110g	
IF100	Integrated Jig/Fixture	Iron integrated combination rivet fork	Telescopic integrated U-shaped fork U5/10/15/20/25/30/35/40/50 	https://i-fixture.com/product/telescopic-integrated-u-shaped-fork/	Mainly used for wiring branching and positioning on tooling plates, automotive wiring harness fork assembly plates, and U-shaped wiring harness forks.	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating	U5, U10, U15, U20, U25, U30, U35, U40, U45, U50 Specifications: When the U-spacing is ≤15: D = 5 mm, fork height = 50 mm When the U-spacing is >15: D = 6 mm, fork height = 60 mm	
IF102	Integrated Jig/Fixture	Grounding terminal busbar (3-prong/4-prong U-type)	Integrated bending 3-pin/4-pin fixture 	https://i-fixture.com/product/integrated-bending-three-pin-four-pin-fixture/	Primarily used for wire routing branches and positioning on assembly boards; suitable for automotive wiring harness branching, assembly line boards, reversible jigs, harness cornering/forking, and U-shaped routing.	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating	U10*L10, U15*L15, U20*L20, U25*L25, U30*L30, U35*L35, U40*L40, U45*L45, U50*L50	MOQ:100PCS
IF038	Integrated Jig/Fixture	Pin Integrated Plastic Fixture	Pin Integrated Plastic Fixture 	https://i-fixture.com/product/pin-integrated-plastic-fixture/	Mainly used for mounting sheaths at the ends of tooling plates	Material: ABS + electroplated iron + stainless steel Needle plating: Zinc plating, nickel plating, chromium plating 2-needle spacing: 4mm	2, 3, 4	
IF039	Integrated Jig/Fixture	Fixed fork and grounded fork	Fixed fork and grounded fork 	https://i-fixture.com/product/fixed-fork-and-grounded-fork/	Mainly used for fixing jigs for round hole terminals	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating Standard rod length: 90mm, thread 35mm (other sizes can be customized upon request)	ϕ3, ϕ4, ϕ5, ϕ6	
IF040	Integrated Jig/Fixture	High-power magnetic disk	High-power magnetic disk 	https://i-fixture.com/product/high-power-magnetic-disk/	Mainly used for iron panels	Material: Electroplated iron and stainless steel	M6 (32mm chassis diameter) M6 (42mm chassis diameter) M8 (48mm chassis diameter) M8 (60mm chassis diameter) M6 (36mm chassis	
IF041	Integrated Jig/Fixture	Plastic bending rod1	Clip-on movable rod 	https://i-fixture.com/product/plastic-bending-rod/	Mainly used for branch positioning and end-piece steel sleeve fixture positioning (used in conjunction with head fixture).	Material: ABS + zinc plating, screw thread 28mm	50, 70, 90	50, 70; products can be shipped without any markings.
IF111	Integrated Jig/Fixture	Plastic bending rod2	Bendable fixing rod 	https://i-fixture.com/product/bendable-fixed-rod-wire-harness-board-tooling-fixture/	Mainly used for branch positioning and end-piece steel sleeve fixture positioning (used in conjunction with head fixture).	Material: ABS + zinc plating, screw thread 28mm	50, 70, 90	

50mm, 60g,70 mm,69 g,90m m82g

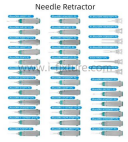

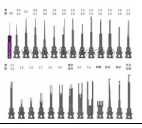

i-Fixture.com

IF103	Integrated Jig/Fixture	Plastic fixing rod	Plastic support rod 	https://i-fixture.com/product/plastic-support-rod/	Automotive wiring harness tooling fixture, wiring harness fixture, injection molding support rod fixture	Material: ABS + zinc plating, screw thread 28mm 120MM	121mm	60g
IF042	Integrated Jig/Fixture	Pulling fixture/telescopic nail	Pulling fixture/telescopic nail 	https://i-fixture.com/product/pulling-fixture-telescopic-nail/	Used in areas with dense branches or on main lines, the fixture can be lowered for easy operator access.	Material: Aluminum profile + electroplated iron Electroplating: Nickel plating Height: Standard sizes 123, 143、153MM (Custom sizes available)One type is injection-molded aluminum, and the other is extruded aluminum.	long:123mm, 143mm, 153mm Suitable for boards thicker than 12mm. short:123mm, 143mm, 153mm Suitable for boards up to 12mm thick	
IF043	Integrated Jig/Fixture	Grounding terminal LA nail	Grounding terminal LA nail 	https://i-fixture.com/product/grounding-terminal-la-nail/	Mainly used for tooling board wiring and positioning.	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating Standard size: 20mm, M6 thread (Other sizes available upon request)	ϕ3, ϕ4, ϕ5, ϕ6,8ϕ, 10ϕ	
IF044	Integrated Jig/Fixture	Flange Nut Fixing Pin	Flange Nut Fixing Pin 	https://i-fixture.com/product/flange-nut-fixing-pin/	Connecting rod with M6 internal thread and M8 external thread, welded nut and washer	"Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating 35mm thread (Custom sizes available)"	50F-M8*35, 70F-M8*35, 90F-M8*35, 100F-M8*35	
IF045	Integrated Jig/Fixture	Turning nail	Turning nail 	https://i-fixture.com/product/bending-nail/	Mainly used for branch positioning and end plugging of connecting rod with M6 internal thread and M8 external thread (used with head fixture)	Material: Electroplated iron and stainless steel Electroplating: Zinc plating, nickel plating, chromium plating Thread size 35mm (size can be customized)	Total height: 50/60/70/80/90/100/110	
IF046	Integrated Jig/Fixture	Silicone Fixture	Silicone Fixture 	https://i-fixture.com/product/silicone-wire-clamp-fixture/	Single wire clamp fixture (to prevent wire from tangling)	Material: Silicone sheet + ABS + Electroplated iron Electroplating: Zinc plating, nickel plating, chromium plating	nail head, nail head shaft integrated	
IF047	Integrated Jig/Fixture	Plastic Three-Pronged Fork	Plastic Three-Pronged Fork 	https://i-fixture.com/product/plastic-three-pronged-fork-2/	Single-wire clamping fixture (to prevent wires from tangling)	Material: Silicone sheet + plastic + Electroplated iron Electroplating: Zinc plating, nickel plating, chromium plating	nail head rod integrated	
IF048	Integrated Jig/Fixture	Plastic Two-Pronged Fork	Plastic Two-Pronged Fork 	https://i-fixture.com/product/plastic-three-pronged-fork/	Single-wire clamping fixture (to prevent wires from tangling)	Material: Silicone sheet + plastic + electroplated iron. Electroplating: Zinc plating, nickel plating, chromium plating.	nail head rod integrated	
IF082	Integrated Jig/Fixture	Trident and three-pronged tool	Plastic Two-Pronged Fork 	https://i-fixture.com/product/plastic-wire-harness-fork-ifixture-three-pronged-cable-clamping-tool-2/	Wire harness clamp end fixture wire clamp wire clamp wire harness fixture end fixture wiring clamp	Materials: Plastic, electroplated iron, and stainless steel	Yellow, green, white, black, gray	
IF089	Integrated Jig/Fixture	End jig wire clamp	Plastic Three-Pronged Fork 	https://i-fixture.com/product/plastic-wire-harness-fork-ifixture-three-pronged-cable-clamping-tool/	The wire harness fixture uses a clamp at the end to secure the wire harness and hold the terminals in place.	170mm	Green, white, yellow, blue, brown, red, black, gray	
IF049	Integrated Jig/Fixture	Metal Bending Fixture	Metal Bending Fixture 	https://i-fixture.com/product/metal-bending-fixture/	Wire crimping fixture (to prevent wires from tangling)	Material: Electroplated iron; Electroplating: Zinc plating, nickel plating, chromium plating	default	
IF050	Integrated Jig/Fixture	Fixed buckle fixture	Fixed buckle fixture 	https://i-fixture.com/product/fixed-buckle-fixture/	Circular base - 6mm terminal positioning fixture	Material: Silicone sheet + plastic + electroplated iron. Electroplating: Zinc plating, nickel plating, chromium plating.	Standard pole lengths: 50, 60, 70, 80, 90, 100, 110 mm (custom sizes are available)	

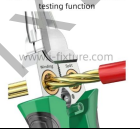

i-Fixture.com

IF053	Integrated Jig/Fixture	Automotive wiring harness assembly board fixture with bent grounding stud		https://i-fixture.com/product/automotive-wiring-harness-assembly-board-fixture-with-bent-grounding-stud/	Mainly used for wiring branches and positioning on tooling plates	Material: Plated iron and stainless steel Plating: Zinc, nickel, or chrome	M8*30(F),M8*35(F)	
IF088	Integrated Jig/Fixture	L-shaped wire harness fixture rod		https://i-fixture.com/product/wire-harness-l-shaped-fixture-rod/	Wire harness fixture fixing rod, positioning rod, wire harness hook, wiring fixing rod, L-shaped wire harness jig rod	25cm*10cm*5cm	silver	MOQ:200PCS
IF076	Integrated Jig/Fixture	Harness Board Nail		https://i-fixture.com/product/harness-board-nail/	1) Speed Routing of Wires 2) Uniform Driving Depth is Insured by a Collar Stop	Nickel-Plated	Overall Length (In.):0.75,1,1.5,2,2.5,3,4	MOQ:1000PCS
IF078	Integrated Jig/Fixture	Wire Harness Fixture U-Shaped Fork		https://i-fixture.com/product/4-way-integrated-fork/	Single wire clamp fixture (to prevent wire from tangling)	Material: Plated iron and stainless steel Plating: Zinc, nickel, or chrome	3 pins, 4pins, 5pins, 6pins	MOQ:100PCS
IF099	Integrated Jig/Fixture	Wire harness fixture three-pins/four pins integrated fork		https://i-fixture.com/product/integrated-three-pin-four-pin-u-shaped-fixture/	Mainly used for tooling board dividing jigs and positioning points	Material: Plated iron and stainless steel Plating: Zinc, nickel, or chrome	3pins(U15*15,U20*20,U25*25,U30*30,U40*40)4pins(U10*10,U15*15,U20*25,U25*25,U35*35,U40*40)	
IF077	Positioning Marker	round terminal fixtures		https://i-fixture.com/product/support-steel-post/	Adhesive tape and clip size positioning	Blue zinc-plated iron	Φ3, Φ4, Φ5, Φ6, Φ8, Φ10, Φ12	
IF054	Positioning Marker	Film positioning mark		https://i-fixture.com/product/film-positioning-mark/	Adhesive tape and clips are used for size positioning.	Material: Blue ABS + Silicone Sheet Height: 102mm (Custom sizes available)	default	
IF055	Positioning Marker	Positioning Marker		https://i-fixture.com/product/positioning-marker/	Adhesive tape and clip size positioning	Material: Electroplated iron + stainless steel + ABS Electroplating: Zinc plating, nickel plating, chromium plating	Height 70mm and 90mm, (Custom sizes available)	
IF056	Positioning Marker	Vertical Marker (Semi-Spring-Loaded)		https://i-fixture.com/product/vertical-positioning-marker-for-wire-harness-assembly-useful-tools-i-fixture/	Adhesive tape and clip size positioning	Material: Electroplated iron + stainless steel + ABS Electroplating: Zinc plating, nickel plating, chromium plating	Default (custom sizes available)	
IF120	Positioning Marker	Vertical Marker (Fully Spring-Loaded)		https://i-fixture.com/product/vertical-positioning-marker-for-wire-harness-assembly-useful-tools-i-fixture/	Primarily used for positioning items such as wire harness ties, accessories, and adhesive tapes.	Materials: Chrome-plated iron, stainless steel, and POM.	Default (custom sizes available)	
IF118	Positioning Marker	Wire Harness Assembly Fixture Support Rod		https://i-fixture.com/product/harness-module-fixing-rod/	Positioning via adhesive tape and clips; fixture modules secured in place.	Material: Electroplated iron + stainless steel Electroplating: Zinc plating, nickel plating, chromium plating	60, 70, 90	50, 55, 60
IF057	Positioning Marker	Wire Harness Tooling Marker		https://i-fixture.com/product/wire-harness-tooling-marker/	Adhesive tape and clips for size positioning	Material: Electroplated iron + stainless steel Electroplating: Zinc plating, nickel plating, chromium plating	Default (custom sizes available)	

i-Fixture.com

IF058	Positioning Marker	Wire Harness Fixture Identification Rod		https://i-fixture.com/product/wire-harness-fixture-identification-rod/	Wire Harness Jig Marker Post / Jig Post / Cable Tie Positioning Post	Material: Electroplated iron + stainless steel Electroplating: Zinc plating, nickel plating, chromium plating	Diameter 8mm, Height 130mm; Green, Blue, Black, Not sold separately	
IF059	Positioning Marker	Shark fin yellow positioning marker jig		https://i-fixture.com/product/yellow-positioning-marker-for-automotive-wiring-harness-jigs/	Wire Harness Jig Marker Post / Jig Post / Cable Tie Positioning Post	Material: Plastic	Width 1mm, height 130mm, yellow (other colors customizable)Not sold separately	
IF119	Positioning Marker	Yellow directional positioning marker for automotive wiring harness jigs		https://i-fixture.com/product/harness-tooling-direction-sign/	Indicate the direction of the tape.	Material: Plastic	Width 30mm, height 90mm; yellow, white.(other colors customizable)Not sold separately	
IF060	Other tools and accessories	Reamer		https://i-fixture.com/product/reamer/	Used for enlarging holes in rubber sleeves, etc.	Material: Electroplated iron + stainless steel	Default (custom sizes available)	A quote can only be provided after samples of the rubber sleeves are submitted for testing.
IF061	Other tools and accessories	Sleeve Expander		https://i-fixture.com/product/sleeve-expander/	Used for enlarging holes in rubber sleeves, etc.	Material: Electroplated iron + stainless steel	Default (custom sizes available)	
IF062	Other tools and accessories	Rework Pin Extractor		https://i-fixture.com/product/rework-pin-extractor/	Wire harness picking needle, correction needle, rework tool	Material: Electroplated iron + stainless steel + ABS	Default (custom sizes available)	
IF063	Other tools and accessories	Simple Pin Extractor		https://i-fixture.com/product/simple-pin-extractor/	Wire harness picking needle, correction needle, rework tool	Material: Electroplated iron + stainless steel + ABS	Default (custom sizes available)	
IF105	Other tools and accessories	36-Piece Terminal Removal Tool Set		https://i-fixture.com/product/wire-harness-terminal-extractor/	Wire harness picking needle, correction needle, rework tool	Material: Electroplated iron + stainless steel + ABS	Default (36 sizes available for individual purchase)	
IF106	Other tools and accessories	27-Piece Terminal Removal Tool Set		https://i-fixture.com/product/27-piece-set-of-commonly-used-needle-retractors/	Wire harness picking needle, correction needle, rework tool	Material: Electroplated iron + stainless steel + ABS	1. 27-Piece Needle Replacement Set 2. High-Capacity Handle + 9 Types of Needle Tips 3. High-Capacity Handle + 27 Types of Needle Tips	
IF107	Other tools and accessories	Terminal Pin Removal Tool		https://i-fixture.com/product/aircraft-connector-cold-press-pin-terminal-harness-m22520-1-01-crimping-pliers/	Wire harness picking needle, correction needle, rework tool	Material: Electroplated iron + stainless steel + ABS	UP2-5, UH2-5, TH1A (M22520/1-02), TH163 (M22520/1-04), DWQ-CDS, DWQ-CCS, TH343, DWQ-CES, TH270, TH286, TH285, TH4 (M22520/1-03), TP465 (M22520/1-11)	
IF064	Other tools and accessories	Manual Sleeve Expander		https://i-fixture.com/product/manual-sleeve-expander/	Used for enlarging holes in rubber sleeves, etc.	Material: Electroplated iron + stainless steel	Default (custom sizes available)	
IF065	Other tools and accessories	Wire Harness Scissors		https://i-fixture.com/product/wire-harness-scissors/	Cable tie cutter 1	Material: Electroplated iron + stainless steel + ABS	Default (custom sizes available)	

i-Fixture.com

IF097	Other tools and accessories	Cable tie gun		https://i-fixture.com/product/cable-tie-gun/	Cable tie gun, wire clamp, cable tightening gun, TG9 cable tie gun with blade.	Material: Chrome vanadium alloy steel + anti-slip rubber shock-absorbing handles	Universal for cable ties up to 12mm, and for sizes ranging from 2.8mm to 13mm.	
IF066	Other tools and accessories	Terminal crimping pliersl		https://i-fixture.com/product/terminal-crimping-pliers/	Terminal crimping pliers	Material: Electroplated iron + stainless steel + ABS	SN-2549 range 0.08-1.0mm² SN-2549 + 460 terminal sets SN-2549 + 1550 terminal sets SN-2549 + 460 terminals + 1550 terminals	
IF091	Other tools and accessories	Multi-functional Wire Stripper		https://i-fixture.com/product/d3-automatic-wire-stripper/	Multi-functional wire stripper, automatic adjustable wire stripper, electrician wire cutter and puller manufacturer	Material: Electroplated iron + stainless steel + ABS	Overall length: 187mm Hand length: 3mm Type: European Color: Red + Black Stripping diameter: 0.03-10mm Cutting power: 6mm	
IF092	Other tools and accessories	Terminal crimping pliers2		https://i-fixture.com/product/tube-type-terminal-crimping-pliers/	Tube terminal crimping pliers VE pin terminal electrician quick wiring terminal pin tube terminal pliers crimping tool	Material: Electroplated iron + stainless steel + ABS	Tube terminal special, 175mm, 205mm	
IF067	Other tools and accessories	Automatic tape wrapping machine		https://i-fixture.com/product/automatic-tape-wrapping-machine/	Automatic tape wrapping machine	Material: Blue and white baked enamel, milky white baked enamel; Electroplating: zinc plating, nickel plating, chromium plating	Special sizes (2.5mm, 3.5mm, 3.0mm, 4.0mm) can be customized.	
IF068	Other tools and accessories	8-in-1 wire stripper with voltage testing function		https://i-fixture.com/product/8-in-1-wire-stripper-with-voltage-testing-function/	8-in-1 Wire Stripper with Voltage Testing Function	Material: Electroplated iron + stainless steel	Default (custom sizes available)	
IF069	Other tools and accessories	Wire harness tape ring cutter		https://i-fixture.com/product/wire-harness-tape-ring-cutter/	Wire Harness Tape Ring Slicer	Material: Electroplated iron + stainless steel	Small, large, color random, Not sold separately	MOQ:5
IF093	Other tools and accessories	High-temperature resistant fleece adhesive tape		https://i-fixture.com/product/velvet-cloth-wire-harness-tape-flame-retardant-high-temperature-resistant-silent-shock-absorbing/	Fleece tape, high-temperature resistant plush fabric tape, adhesive-backed black automotive wiring harness tape.	Tell me the parameters you need.	Tell me the parameters you need.	MOQ:20PCS
IF094	Other tools and accessories	Self-adhesive cotton finger protector tape		https://i-fixture.com/product/cotton-yarn-self-adhesive-tape/	Finger bandages, tape, self-adhesive protective sleeves to prevent chafing and calluses, elastic bandages, nail care finger wraps	cotton	Green, yellow, pink, white, purple, fluorescent yellow, red, sky blue 1.9cm x 14m	
IF095	Other tools and accessories	PVC waterproof insulating wire harness tape		https://i-fixture.com/product/pvc-insulation-wire-harness-tape/	Waterproof insulating wire harness adhesive, PVC electrical and automotive industry tape for sealing and fixing, black and white electrical adhesive.	Tell me the parameters you need.	Tell me the parameters you need.	MOQ:20PCS
IF070	Other tools and accessories	16-in-1 multi-purpose wire stripper		https://i-fixture.com/product/16-in-1-multi-purpose-wire-stripper/	(Wire Splitting/Winding/Shaving) External Spring Model	Material: Electroplated iron + stainless steel	Default (custom sizes available)	
IF071	Other tools and accessories	anti-interference braided wire harness sleeving.		https://i-fixture.com/product/tin-plated-copper-has-stronger-and-more-stable-shielding-effectiveness/	Self-wrapping sleeve with tinned copper shielding for signal protection, open-style metal protective conduit, and anti-interference braided wire harness sleeving.	Material: Eco-friendly, flame-retardant	ID 3mm/1m, ID 13mm/1m, ID 25mm/1m, ID 40mm/1m, ID 5mm/1m, ID 16mm/1m, ID 29mm/1m, ID 50mm/1m, ID 8mm/1m, ID 19mm/1m, ID 32mm/1m, ID 60mm/1m, ID 10mm/1m, ID 20mm/1m, ID 38mm/1m	MOQ:1M
